## Working for a better quality of life

Asking questions, listening, thinking and acting, that is what Curan is all about. We develop and produce highly reliable and innovative products, made according to the wishes of end-users and professionals. Our mission is to improve quality of life for people with incontinence. We achieve this goal by developing, producing and distributing high-quality products, which offer our end-users a comfortable, hygienic, pain-free and problem-free solution for intermittent catheterisation.

- Smooth polished eyelets

- Box of 30

## We offer you the highest level of quality control

All Curan products meet the highest quality requirements. Before a product leaves our production unit, it has passed a number of very strict quality checks. Each catheter is individually tested and guaranteed safely to use. We proudly hold a CE - and ISO 13485:2012 Certificate and we offer you the highest degree of quality, security and comfort.
